

NORTHLAND COMMUNITY AND TECHNICAL COLLEGE

2012 STUDENT RIGHTS AND RESPONSIBILITIES

Part 1. Freedom to Learn. Students at Northland have specific rights related to academic freedom and their status as students. Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends on appropriate opportunities and conditions in all learning environments, on the campus, and in the larger community. Students are expected to exercise their freedom with responsibility.

Part 2. Freedom of Expression. Individual students and student organizations shall be free to examine and discuss all questions of interest to them and to express opinions publicly and privately. They shall be free to support causes by orderly means that do not substantially disrupt the regular and essential operation of Northland. Students shall be free to take reasoned exception to the information or views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.

Part 3. Freedom of Association. Students shall be free to organize and join organizations to promote their common and lawful interests, subject to Northland's policies, procedures, or regulations. Registration or recognition may be withheld or withdrawn from organizations that violate Northland's policies, procedures, or regulations.

Part 4. Student-Sponsored Forums. Students shall have the right to assemble, to select speakers, and to discuss issues of their choice. Northland shall establish reasonable time, place and manner restrictions to assure that the assembly does not substantially disrupt the work of the college or interfere with the opportunity of other students to obtain an education or otherwise infringe upon the rights of others. Such restrictions must not be used as a means of censorship. The president or designee may prohibit any forum where there is a likelihood of harm to individuals or damage to property if the event is held. To the extent possible, the president shall consult with the student association.

Part 5. Student Publications. Student-funded media (print, broadcast and electronic forms) must be free of censorship and advance approval of copy. Their editors and managers shall be free to develop their own editorial and news coverage policies. Editors, managers, and contributors of student media shall be protected from arbitrary suspension and removal because of student, faculty, administrative, or public disapproval of editorial policy or content. The student fee allocation process must not be used as a means of editorial control of student-funded media. All student media must explicitly state on the editorial page that the opinions expressed are not necessarily those of the college, Minnesota State, or student body.

Part 6. Student Policies. The policies, procedures, and regulations of the college regarding student expectations, rights, and responsibilities must be readily accessible to students.

Part 7. Catalog and Course Information. To the extent possible, students must be provided relevant and accurate information regarding courses prior to enrollment. Catalog course descriptions and website postings must be accurate and based on information existing at the time of publication. To the extent possible, class schedules must list the names of faculty teaching the courses.

Part 8. Student Academic Standing Information. Students must have access to accurate information for establishing and maintaining acceptable academic standing, information which will enable students to determine their individual academic standing, and information regarding graduation requirements.

Part 9. Academic Evaluation. Student academic performance must be evaluated solely on the basis of academic standards, including any requirements that are noted in the catalog, course syllabus, student handbook, or on the college website. Students must have protection against prejudiced, discriminatory, or capricious evaluation and not be evaluated on the basis of opinions or conduct in matters unrelated to academic standards. Students must have the right to review their corrected examinations or other required assignments used by the faculty in evaluating the student's academic performance.

Part 10. Property Rights. When no longer needed for evaluation purposes, a student's physical personal property, including but not limited to term papers, essays, projects, works of art, and similar items must be made available for return to the student within a reasonable timeframe. The return process must preserve the privacy of the student's grade or score. A student's written permission must be obtained before a student's personal property, including intellectual property, may be used for purposes unrelated to the evaluation of their academic performance.

Part 11. Student Review and Consultation. Students must have the right to appropriate levels of participation in college decision-making pursuant to Minnesota State Policy 2.3 and Procedure 2.3.1, Student Involvement in Decision-Making.
