

8010 Speakers' Bureau Policy

The NCTC Speaker's Bureau serves as a bridge between Northland Community and Technical College and the broader regional community.

The Speaker's Bureau makes available to businesses and groups within our region the expertise of NCTC employees. The Bureau provides a mechanism for members of businesses and groups within the region to contact members of the college community to present (give talks, lead discussions, provide demonstrations, etc.) at events hosted by the community partner.

The Bureau consists of general topic areas that fit the expertise of the membership (e.g., business and marketing strategies, current social issues, scientific issues, hobbies, etc.) Actual topic areas are determined by Bureau membership.
