ABOUT ETHEL CURRY:

Ethel Curry was born in Hixton, Wisconsin in 1888. In 1914 she graduated from the University of Minnesota with a B.A. in Mathematics and Biology. Post-graduation, Ms. Curry was accepted into two medical schools, but due to health considerations, did not attend either. She instead worked for the Mayo Clinic for nearly 40 years as a surgical secretary.

According to her niece, Jeanne Angel, Ms. Curry lived simply and frugally, without television or telephone. She was a lifelong scholar with a lively, inquiring mind and an independent spirit. Her tremendous wealth was attained through investments in Minnesota Mining and Manufacturing (3M). Ms. Curry was a warm and sociable person, who held a deep compassion for American Indian people. Ethel Curry died in 1995 at the age of 107.
