Courses that relate to what you will actually need
The courses are highly focused on the technical skills that you will actually need on the job.

Hands-on experience
At Northland you will gain a hands-on experience that is second to none. This makes you far more prepared than someone who just has a degree - but no experience.

Shorter programs, faster learning curve
By reducing the general course requirements, you can develop technical skills quicker than traditional programs.

Qualifications that prepare you for success
Because your program is more technically focused, you are better trained for the job.

Liberal Arts & General Education
Complete your “generals” at Northland without the auditorium packed with hundreds of students. You will receive the attention you deserve from nationally recognized faculty.

As you complete your general education courses complete an Associates of Liberal Arts degree. An A.A. in Liberal Arts degree is a great start for any career, and will make transferring to a four-year college or university a breeze.

Transferring
Other colleges and universities recognize the quality of the education you will receive at Northland. **You will easily be able to start here and transfer your A.A. degree to another institution to earn your bachelor’s degree.**

Select your Liberal Arts pathway!
Students select one of three pathways to help students attain their goal of a Transfer Degree.

- Communications & Humanities
- Technology, Engineering, & Mathematics
- Social & Behavioral Sciences

If properly planned an A.A. in Liberal Arts is the initial step for many fields of study and professions.
Northland Community and Technical College is a leader in promoting athletics and participating in numerous state, regional and national competitions. Northland’s athletic programs have a long tradition of excellence, both on and off the playing surface, and are recognized as an important part of the college experience.
GET STARTED
