About Grades

Use the Grades tool to check your grades on assignments and tests. You can see your individual grades and comments, as well as class averages and feedback. You can also view your final grade and the grade formula used to evaluate you if your grades are released.

Access the Grades tool

Click Grades under Assessments.

Viewing your grades

When your grades are published, they appear on your personal Grades page in the course. Depending on how your grades are set up, you might also be able to view comments and overall class performance statistics.
