## RETENTION / ATTRITION

The Retention threshold set by the CoAEMSP is 70% and based on the percentage of students who started on the enrollment date (who began Paramedic coursework) who are enrolled and graduated. The success of Retention will be computed using the total number of students that completed in the most recent reporting year (2018) and is calculated by determining Attrition (the number of students who dropped out divided by the total number of students enrolled). Once the Attrition percentage has been determined, then the Retention percentage is 100% minus the Attrition percentage. Students will be not counted as attrition if they withdraw or are dropped from the program before a maximum of 25% of the total Paramedic educational program hours including all phases (i.e., didactic, lab, clinical, field experience, and capstone field internship) are concluded.

Manually Calculate Attrition/Retention Results:

$$\text{Attrition} = \frac{\text{Total \# of Academic Reasons} + \text{Non-academic Reasons}}{\text{Total \# of Students enrolled}}$$

$$\text{Retention} = 100\% - \text{Attrition}$$

Are results for both the National Registry & State Written Examinations being reported?

No

Which written examination results are being reported?

National Registry

**National Registry / State Written Examination**

The National Registry Written Examination threshold is 70% (set by the National Registry) or the State Written Examination threshold is 70% (set by the State). The success of any examination results will be computed over the most recent reporting year (2018) based on the total number of graduates attempting the examination (i.e., unduplicated head count of attempters who pass).

**Positive (Job) Placement**

The Positive (Job) Placement threshold set by the CoAEMSP is 70%. Positive (Job) Placement means that the graduate is employed full or part-time or volunteers in the profession or in a related field; or is continuing his/her education; or is serving in the military. A related field is one in which the individual is using cognitive, psychomotor, and affective competencies acquired in the Paramedic educational program.
