**Work To Do --** widget is only visible to students in D2L's NCTC college homepage.

Work To Do -- widget summarizes a list of assignment folders, quizzes, discussions, surveys from all courses the student is enrolled in per semester.   The list does not include Virtual Assignments as this uses Bongo a 3rd party software.   Any 3rd party software's are not pulled/listed.

HOWEVER – instructors must assign start date/time and end date/time or due date/time, in order for the **Work To Do** widget to pull and list the information.

The screenshot below has pulled and listed assignments, quizzes for a student enrolled in 3 courses.

Click on   **View all work**   link to view an entire list.

Students should make certain to print and follow all course schedules / syllabus provided by each instructor.
As some instructors may assign activities that **do not require** use of the Discussions, Assignments, Quizzes, or Video Assignments, or Virtual Classroom tool.

In that case, the **activity WILL NOT appear** in the Work To Do widget.

KD 6-8-2021

The Work To Do widget will display all overdue or upcoming activities from all current courses the student is enrolled in for the semester.

Overdue -- looks back 12 weeks.
Upcoming Activities -- looks ahead 14 days
